a maximum width of 200 yards.

A powerful storm system and a dry line produced several rounds of severe thunderstorms with some super cells. There were reports of a couple tornadoes, wind damage, and large hail.

A storm survey conducted by the NWS Office in Pleasant Hill found an EF 1 tornado began at the intersection of Highway 69 and Soldier Road, near Hammond, Kansas. Minor damage was noted near Hammond, with the most significant damage consisting of toppled over grain bins and several derailed empty train cars. Through the remainder of the Bourbon County path, several destroyed outbuildings were noted as well as significant tree damage. The tornado path continued into Linn County, Kansas. Maximum winds with the tornado in Bourbon County were estimated to be between 100 and 110 mph with

A tree was reported down across Highway 19 four miles south of Eminence.

A powerful storm system and a dry line produced several rounds of severe thunderstorms with some super cells. There were reports of tornadoes, wind damage, and large hail.
